Jenny McCarthy's Generation Rescue and gfMeals, by Your Dinner Secret, have joined forces to support autism research and treatment. gfMeals is stepping into the role of helping Generation Rescue support families with understanding and implementation of the gluten-free casein-free (GFCF) diet. Also, Roni Piterman, co-owner of gfMeals, has become a Generation Rescue GFCF Expert. Generation Rescue is an international movement of scientists, physicians and parent-volunteers researching the causes and treatments for autism and helping thousands of children begin biomedical treatment.

"Families battling autism, ADHD and chronic illness often see benefits from the gluten and casein free diet. gfMeals by Your Dinner Secret makes it easy for these families to get great tasting GFCF meals with one phone call or a click of a button. What could be easier?" notes Stan Kurtz, president of Generation Rescue, Jenny McCarthy's autism organization and father of a child recovered from autism.
